ELEGANCE

A smooth, compact surface from vacuum drying, with a full-bodied handle. The all-round choice for production.

Elegance leather is made from first-choice European hides processed with vacuum drying: the surface comes out smooth and even, the touch silky, the handle full-bodied and structured. The refined pigmentation ensures a hard-wearing finish that stays consistent between batches. A range of 25 shades covering neutrals, earth tones and deep colours: the all-round choice for sofas, seating and leather goods where continuity of supply and an even result are needed.
