MILANO

Pelo alto e volume generoso: il tessuto che si fa notare per morbidezza prima ancora che per colore.

Milano è costruito su un pelo alto e sontuoso: la morbidezza non è superficiale, si sente affondando la mano. Il volume è generoso e l'aspetto avvolgente. È il tessuto delle sedute che devono catturare lo sguardo e definire il tono di una stanza, senza bisogno di un colore forte. Il pelo alto vuole forme piene e curve, dove può gonfiarsi: poltrone avvolgenti, divani modulari, pouf. Su spigoli vivi e cuciture strette si schiaccia. I 90.000 cicli Martindale sono il valore più alto del catalogo tessuti.
