NATURAL

A natural grain that never repeats itself, eco-friendly pigments, a luminous surface. Softness and workability come first.

Natural leather puts the emphasis on how it feels: a silky, warm touch, an authentic grain that never repeats itself, a bright surface with a sophisticated look. The finish with eco-friendly pigments respects both the raw material and the environment. A thickness balanced between strength and flexibility: it lends itself to work where softness and ease of cutting and stitching make the difference, from furniture to quality craftsmanship.

TECHNICAL SPECIFICATIONS

Thickness	1.3 / 1.5 mm
