BRIGITTE

Two-tone bouclé with contrasting yarns: colour depth and personality for interiors with character.

Brigitte fabric weaves two contrasting yarns together: the result is a rich, textured bouclé with a dynamic play of colour that gives movement to every surface. For projects that want to stand out: seating and accent pieces with a current design, where the fabric is part of the language of the room. The contrasting weave changes tone with the light and the viewing angle. It is the fabric to choose when the seating has to be the recognisable element of the room, not the backdrop for everything else.
